Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 17 and 19-26 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 10/16/07.
2. Applicant's election without traverse of claims 1-16 and 18 in the reply filed on 10/16/07 is acknowledged.
3. Claims 6, and 11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The phrase "the additive" (cl 6, lns 1-2) lacks proper antecedent basis in the claim.

The phrase "e.g....reaction" (cl 6, lns 2-3) is indefinite because it is unclear whether or not the examples are limitations. The scope of the claim is unascertainable.

The phrase "e.g....film" (cl 12, lns 1-2) is indefinite because it is unclear whether or not the examples are limitations. The scope of the claim is unascertainable.

Correction is required.

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1,2,3,4,6,9,10,13,16, and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Samuelsen (USPN 6051249). Samuelsen teaches the claimed process as evidenced at col 4, lns 50-65; col 5, lns 1-24 and 46-51; col 6, ln 46-col 7, ln 31; col 8, ln 53-col 7, ln 31; example 4; patented claims 7 and 12.

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 5,7,8,11,12,14, and 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Samuelsen (USPN 6051249). The above teachings of Samuelsen are incorporated hereinafter. Each of these claims are directed to the use of a specific material, however the use of a specific material in a process is a mere obvious matter of choice dependent on the desired final product and of little patentable consequence to the claimed process since it is not a manipulative feature or step of the claimed process. Further, the claimed materials are well-known in the molding art and the adhesive art. Thus, it would have been obvious to one of ordinary skill in the art at the time the invention was made to use the claimed materials in the process of Samuelsen in order to form diverse dressings that meet the diverse needs of the cosumers.

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Both US 2006/0233959 and USPN 6458454 teach the state of the art.
